Notes:

- Make sure the SSD or SD Card slider/flap is locked. DVR will not start unless locked.
- Use your monitor to verify all cameras are recording and ports with no cameras are not recording.
- Use your monitor to test each microphone; Monitor volume max, press select camera on Remote, i.e. camera 1 on remote #1, tap on the microphone. You should hear the sound on the monitor.
- If a cameras stops working, check for gum on the lens. This is the most common reason for no video.
